- ❖ *Should I trespass and violate this oath, may the reverse be my lot!*

From Principal's Desk

Dr.P.Udaya Shankar

Maharajah's College of Pharmacy has been established in 2004 keeping pace with the requirement of job oriented technical education.

We endeavor to equip our diplomas, graduates and post graduate students with both technical knowledge and skills, at the same time honing their management talent, so that they may contribute to the industry, achieving excellence as professionals.

They then go on to perform successfully as pharmacist in varied industries. In this era of stiff competition, success can only be achieved if one makes the right kind of endeavor at the right time and in the right direction.

In such era of rapid changes the only uncertainty is certainty. Therefore pharmacy educational institutions, Universities, Govt. regulatory bodies (AICTE, PCI) with the partnership of pharmaceutical industries must analyze and understand the situation and work together with new attitude, vision and destiny for evolving the state-of-the-art of pharmacy education in India.

"It makes sense to expect resistance when you work to create change. It also helps to know that you are supporting change for the right reasons"

I extend my best wishes to all the students and Staff.....
